The investment portfolio of the Fund will generally include equity securities that are selected from constituents of the MSCI Women’s Leadership Index (the “**Index**”). The Index aims to represent the performance of those companies that exhibit a commitment towards gender diversity among their board of directors and leadership positions. The Index aims to include companies which lead in their respective countries in terms of female representation in Board and in leadership positions. The Index is constructed with broad exposure across global sectors and within each sector group, constituents of the Index are weighted according to market capitalization.

To be eligible for the Index, companies must satisfy the following criteria:

1. Number of Women in Leadership Position
 - At least 3 female directors OR at least one woman in a current leadership role AND at least one other female director.
2. Percent of Women on Board
 - Percentage of female directors on the Board is greater the average percentage of companies within the same MSCI country of classification.
3. Discrimination and Workforce Diversity Controversy
 - MSCI ESG Controversies Score: Labor Rights – Discrimination and Workforce Diversity Controversy Score: 2

From the Index, the portfolio manager applies a quantitative approach to stock selection and portfolio construction in order to determine the portfolio weights that they believe provide the strongest opportunity for long-term capital appreciation.

The Fund also considers ESG risks in the evaluation process to minimize non-financial risks. Environmental criteria consider how a company addresses issues such as pollution control and waste management. Social criteria examine how it manages relationships with employees, suppliers, customers, and the communities where it operates. Governance deals with a company’s leadership, executive pay, audits, internal controls, and shareholder rights.

The Fund is a Sustainable Investment Solution that is considered a sustainable thematic fund, as further described in the “**Sustainable Investing at Mackenzie**” section of this simplified prospectus.

The Fund may hold cash and/or short-term debt securities in anticipation of, or in response to, unfavourable market conditions; and/or for liquidity purposes.

The Fund may hold a portion of its net assets in securities of other investment funds, including ETFs, which may be managed by us, in accordance with its investment objectives. For more information, see the “**Fund of Funds**” disclosure under “**Fees and Expenses**”.

In accordance with applicable securities regulations or as permitted by the exemptions from these regulations, and as further described in the “**What are the General Risks of Investing in a Mutual Fund? – What Does the Fund Invest In?**” section of this simplified prospectus, the Fund may

- use derivatives for hedging and non-hedging purposes;
- engage in securities lending, repurchase and reverse repurchase transactions;
- engage in short selling (the portfolio manager does not currently engage in short selling but may do so in the future without further notice to investors); and
- invest in certain U.S. listed ETFs that replicate an index on a leveraged basis and/or that invest in physical commodities.

If the Fund employs any of these strategies, it will do so in conjunction with its other investment strategies in a manner considered appropriate to pursuing its investment objectives and enhancing its returns.

- f) On page 191, under “**Major Events during the Last 10 Years**”, by adding a row related to the Portfolio management responsibilities being assumed by the Mackenzie Multi-Asset Strategies team:

Effective date	Event
September 25, 2020	Change of name from Mackenzie Global Leadership Impact Fund
April 3, 2024	Impax Asset Management LLC ceased to be sub-advisor

- g) On page 192, under “**Investment Risk Classification Methodology**”, by replacing the third paragraph with the following:

The MSCI **Women’s Leadership Index** (the “**Index**”) aims to represent the performance of those companies that exhibit a commitment towards gender diversity among their board of directors (“**Board**”) and leadership positions. The index aims to include companies which lead in their respective countries in terms of female representation in Board and in leadership positions. The Index is constructed as a sector neutral index so that sector weights within the Index are equal to their weight in the “parent” MSCI Index (the “**Parent Index**” in this case is the MSCI World Index). Within each sector group, constituents of the Index are weighted according to market capitalization.

- h) By removing all references and ancillary disclosure related to Impax Asset Management LLC.
